## Plan for Calls

Document: P-PRG-GUI-031  
Approved: EMRP Programme Manager

Version: 1.0  
2015-10-20

The first Work Plan for EMPIR published by the Commission<sup>1</sup> contained a lifetime plan for calls. This information will not be included in future Work Plans and so is reproduced here for reference. The following table indicates the initial expectation for calls and the estimation for external participation in each TP at the beginning of the programme. Budgets will be adjusted throughout the life of the programme and information on current calls should always be taken from the current "Budget and Features" document and not this table. The information here should only be used as an indication for future years.
